

[Freegal](#), one of the music providers in our [virtual branch](#), recently did a complete overhaul of their product. There is a new website and new apps for mobile devices. Patrons who were already using the service do not need to re-register, but if you were using the old app, you will need to update to the latest version. Be advised that the new app requires certain versions of iOS and Android to run.

For those using an Apple iOS device, it needs to have iOS 10 or higher. Android users will need to have KitKat (4.4) or higher.

This and other updates about our virtual branch can be found in [this blog post](#),
