

Welcome to the Mercer County Library System's Newly Renovated Website

(posted 9/24/12)

We are pleased to be able to announce the launch of this new site, which was developed during the summer of 2012 by a team of library professionals with you – our patrons – in mind. The site went live in September, 2012. We anticipate that it will provide more information in a clean, easy-to-use design. It features an improved navigational structure, home page program information, and streamlined access to using library spaces and services, as well as online research resources.

Please note that the website is still undergoing revision, so your patience is appreciated while we continue our work in progress. We look forward to your comments and welcome your suggestions to improve the site. Please send comments via our Support Form.
